## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 22, line 5, and claim 29, line 10, the limitation "sufficiently large" is vague and indefinite as to the grain sizes of the soft metal.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 33 and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakasaki US 5,084,412.

Nakasaka discloses a semiconductor structure including a chip having devices therein, and a soft metal layer (14) interconnecting the devices, the metal including Cu, and having a substantially scratch-free surface upon polishing (see figs. 2D, 2E and col. 7, line 59 to col. 8, line 13).

### ***Allowable Subject Matter***

Claims 1-21 and 35-37 are allowed over the prior art.

Art Unit: 2822

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
